

BREAST REST™

Patent pending

Does what it says. Says what it does.

BREAST REST is the **GREATEST** solution to accommodate your female clients!

(But don't worry; it works for your male clients too!)

SIMPLE No hassle concept!

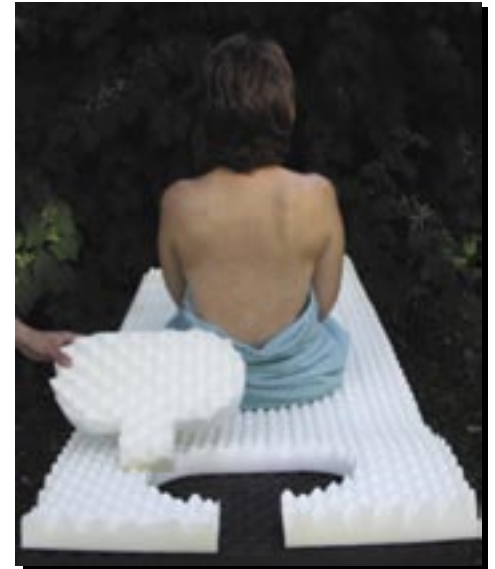

- **BREAST REST** is a custom designed pad to fit your table so leave it on all the time.
- Removable disc creates a recessed cavity with ample space for the breasts.
- When client is in the supine position leave breast disc intact.
- For prone position, simply remove the disc and have client turn over.

Amazingly COMFORTABLE:

- Once prone, your client will be in heaven! **BREAST REST** not only accommodates the breasts, it cradles the entire body.
- Three inches of furniture grade foam provides head to toe comfort for all clients.
- No more sliding rolled towels under your client to support their breasts.
- No more fidgeting clients trying to get comfortable.

Other unique and innovative features of BREAST REST:

- Mini wedge placed under **BREAST REST** adds a gentle incline while client is supine and increases cushion when client is prone.
- Removable breast disc has neck spacer to ensure room for the neck.
